TIDEBREAKERS

THE OCEAN IS FULL OF SECRETS

Creative Production Package v1

01 · DIRECTION

Start small. Earn something magnificent.

Adventurous & warm

A sunlit animated world. Every frame has one bright point, and it's where the treasure is.

Mischievous, never menacing

Our pirate mark is the Grinning Sun: gap-toothed, eye-patched, rising out of the sea. No skulls, no crossbones.

Handcrafted collectibility

Detail over noise: rope twists, planks, shells, bunting. Everything looks worth picking up.

Cohesive by construction

One outline colour, one palette, one shape language across ships, cast, UI and marketing.

Rules: no muddy browns · shadows go cool (plum, indigo) · highlights go warm (cream, gold) · outlines are Deep Tide, never black.

03 · TYPE

Fraunces for wonder, Nunito for clarity

TIDEBREAKERS

Fraunces Black 144pt: wordmark, titles, discoveries

Sunburst Mask · Marlo's Shipyard

SET SAIL · ADD TO CATALOG

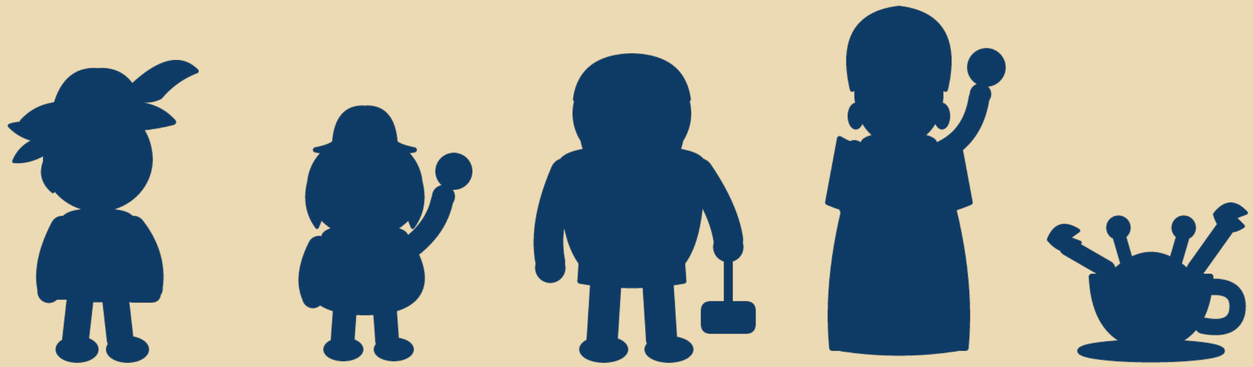

Nunito Black: buttons, tabs, HUD numbers (min 13 pt on iPhone)

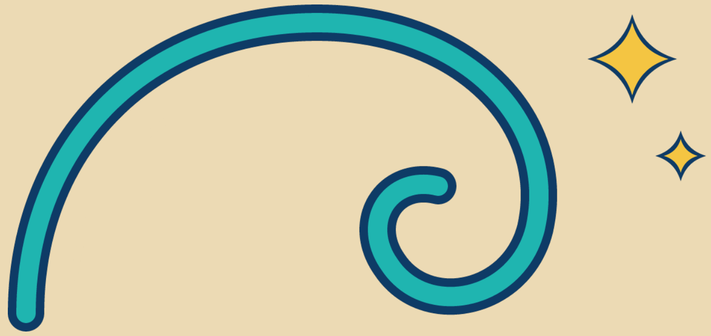

Nunito Bold body: Carved by people who loved the sun. It is, without doubt, grinning at you. Your Catalog keeps the record forever, even if you sell.

Retire Pirata One from UI headings: blackletter collapses below 20 pt. Both families are SIL OFL; ship them self-hosted.

04 · SHAPE & RENDER

Pebble & Sail, silhouette first

Pebbles (round, chunky) for bodies, rocks and panels. Sails (tapering curves) for anything adventurous. The Tidecurl is our signature flourish.

Rendering: flat vector + two-tone cel shading (base, one cool shadow, one warm rim). Silhouette outline 3 to 4 px, interior 1.5 to 2 px, Deep Tide navy. Gradients only for sky, water, glow and gold. Lighting: golden-hour key from upper-left, teal ambient, gold rim on heroes; night uses lantern amber vs moonlit indigo.
